

BAND AIDS NEEDED

For

Marching Band Field Shows

- The marching band performs field shows at various events ranging from Simi High Friday night home football games to Saturday marching band competitions against other schools. BAND AIDS are boosters who help at these field show events by assembling and moving props and equipment onto the field when and where needed. We have ATV's and trailers to help, but field shows require about a dozen boosters to "aid".
- BAND AIDS are also needed in the stands during home football games to distribute water and seat cushions to the students, and to handle various other supportive tasks during the game.

If you like getting an up-close view of the marching band field show and having direct interaction with the band, this job is for you! Contact Jeff Hayden, Transportation Coordinator at (805) 732-0177 to volunteer.

The Boosters and the Marching Band students thank you.
